

THERMAL FEVER

SCREENING SOLUTIONS

FROM ACCTIVE SYSTEMS

Stand-alone to fully integrated.

Solutions for all environments,
applications and budgets.

HELPING YOU SAFEGUARD, MANAGE AND MITIGATE RISK

In these challenging times, thermal solutions that detect elevated body temperatures (a symptom of COVID-19) play a key part in safeguarding your employees, visitors, the wider public and continuity of your business as a whole.

Acctive Systems' wealth of experience in thermal technologies, proven track record in rapid deployment and agnostic approach to products enable us to design, specify and deliver bespoke solutions to meet exacting needs and risk profiles. To find out how we can help you safeguard, manage and mitigate risk, contact sales@acctive.co.uk.
